Art Unit: 2161

This is in response to Applicant's remarks filed on October 08, 2004 in which claims 1-42 are presented for examination.

Status of Claims

Claims 1-42 are pending.

Applicant's arguments with respect to claims 1-42 have been considered but are moot in view of the new ground(s) of rejection.

The rejection under the newly found art follows:

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1-7, 10-15 are rejected under 35 U.S.C. 101 because they are directed to non statutory subject matter, specifically, as directed to abstract idea.

As per claims 1-7, 10-15, the language of the claims raises a question as to whether the claims are directed merely to an abstract idea that is not tied to a technological art, environment or machine which would result in a practical application producing a concrete, useful, and tangible result to form the basis of statutory subject matter under 35 U.S.C. 101.

Claims 1-7 and 10-15 are also rejected under 35 U.S.C. 112, first paragraph. Specifically, since the claimed invention is not supported by either a technological art, environment or machine asserted utility or a well established utility for the reasons set forth above, one skilled in the art clearly would not know how to use the claimed invention.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As per 16, claim 16 recite a single means, such as a graphical user interface" to receive user inputs. This single means render the claim indefinite.

As per claims 17-23, these claims are at least rejected for their dependencies on the rejected claim 16 above. They are therefore rejected as set forth above.

Allowable Subject Matter

Claims 8-9, 24-42 are allowable over the prior art of record.

Claims 16-23 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
